I AM A CRISTAL[®] BALL I FLOW

A comment:

In these puzzles certain authentic clues have been given along with inauthentic ones.

Go through both clues and make out with which of my images they go with.

What you get is what I am. Get real and create a custom character in an unreal engine

<https://www.youtube.com/watch?v=wSESd1Eajt4>

More comments:

PrecAce add better face morphs, make it so each looks different.

HowTuts can i use my custom head, can i animate my face? Can i add my own character? And if yes, how to do it?

LauBrün so, once I create a character, can I use it for commercial projects?

PureStre character doesn't look as real as it does in the creator.

mightyfog you need a better character creator. It needs more range and beauty.

FghjVgz what about girls?

GrayRose not enough morph targets to truly make a new unique character.

JustEls are there gonna be extensions to this?
